Importantly, they have excellent insight into the nature of the problem that needs solving and always go the extra mile to help get projects over the line.

An absolute pleasure to work with."

Day 2025

24th September 2025

I worked with the HSE Library Service on two systematic reviews, undertaken as part of our work on the National Clinical Programme (www.hse.ie/eng/about/who/cspd/hcps/gender)

Throughout the process the Library team were exceptional, offering expert advice and guidance at every step, and providing tools like Nested Knowledge to help us to complete the reviews effectively and efficiently.

They also were able to help us innovate our process, by using LibGuides to allow external stakeholder to review and participate in our systematic reviews, enhancing transparency and effectiveness.

My sincere thanks to Siobhan, and all at HSE Library, for your invaluable help.

HSE National Clinical Lead for Gender Healthcare
